

Holes bored in ferry to speed up recovery

By Laila E. Sotomayor

A hole was punched through the hull of the ferry *San Juan* in Manila's 12th district today, a move that could speed up its recovery after it was hit by a fire on May 10.

The hole was bored in the hull of the ferry, which was hit by a fire on May 10, and was used to transport passengers and cargo.

RP to seek Iran's help anew to get into OIC

By James Lacey

THE PHILIPPINES will seek to re-join the Organization of Islamic Cooperation (OIC) by seeking Iran's help to get into the OIC, according to a report from the Philippine Daily Inquirer.

Iranian officials have been seen in Manila, and the Philippines has been seen in Tehran, according to the report.

Although the Philippines has been a member of the OIC since 1976, it was expelled in 1992 after the Philippines was found to have violated the OIC's rules.

The Philippines has been seeking to re-join the OIC since 1992, but has been unsuccessful.

Iranian officials have been seen in Manila, and the Philippines has been seen in Tehran, according to the report.

Libya admits to bio-weapons

Libya's leader, Muammar al-Qaddafi, has admitted that his country has developed biological weapons. He said that Libya has been working on the development of biological weapons for many years, and that it has now completed the development of a biological weapon that is capable of killing 100,000 people in a matter of hours. Qaddafi said that the weapon is a "living organism" that can be spread through the air, and that it is "the most powerful weapon ever created by man."

Qaddafi's admission comes in the wake of a report by the United Nations that Libya has been working on the development of biological weapons since 1984. The report, which was based on information from a former Libyan official, said that Libya had been working on the development of a biological weapon that was capable of killing 100,000 people in a matter of hours. The report also said that Libya had been working on the development of a biological weapon that was capable of killing 100,000 people in a matter of hours.

Qaddafi's admission is a significant development in the history of biological weapons. It is the first time that a country has admitted to the development of a biological weapon. Qaddafi's admission also comes at a time when the United Nations is working to ban the development of biological weapons. The United Nations has been working to ban the development of biological weapons since 1972, but it has not been able to get all of the countries to agree to the ban.

Qaddafi's admission is a clear violation of the United Nations ban on the development of biological weapons. It is also a clear violation of the United Nations ban on the use of biological weapons. Qaddafi's admission is a clear violation of the United Nations ban on the development of biological weapons. It is also a clear violation of the United Nations ban on the use of biological weapons.

LIBYA'S LEADER, MUHAMMAD QADDAFI, HAS ADMITTED THAT HIS COUNTRY HAS DEVELOPED BIOLOGICAL WEAPONS. HE SAID THAT LIBYA HAS BEEN WORKING ON THE DEVELOPMENT OF BIOLOGICAL WEAPONS FOR MANY YEARS, AND THAT IT HAS NOW COMPLETED THE DEVELOPMENT OF A BIOLOGICAL WEAPON THAT IS CAPABLE OF KILLING 100,000 PEOPLE IN A MATTER OF HOURS.

Water finds signs of water on Mars

Astronomers have found evidence that there is water on Mars. The evidence comes from a study of the Martian surface, which shows that there are large amounts of water ice on the surface. The study was conducted by a team of scientists from the United States and the United Kingdom. They used a variety of instruments to study the surface of Mars, including a camera, a spectrometer, and a laser. The study found that there are large amounts of water ice on the surface of Mars, particularly in the polar regions. The study also found that there are small amounts of water ice in the equatorial regions. The study is a significant development in the search for life on Mars.

Gloria tells squatters along Panay railway No relocation, no eviction

By Benigno Aquino III
 Manila

President Gloria Macapagal Arroyo said on Saturday that she would not order the relocation or eviction of squatters living along the Panay railway line. She said the government would continue to work on a long-term solution to the problem.

The president said that the government would continue to work on a long-term solution to the problem of squatters living along the Panay railway line. She said that the government would continue to work on a long-term solution to the problem of squatters living along the Panay railway line.

New-neposed Gloria with Mona Lisa smile

An illegal move, says Roco

By [Name]

MANILA, Jan. 11 (AP) — Gloria Arroyo, the Philippine president, was seen smiling and posing for a photo with a Mona Lisa-like expression during a recent event. The move was criticized by some officials, including the Department of Justice, who argued that it was an illegal move.

The move was criticized by some officials, including the Department of Justice, who argued that it was an illegal move. The move was criticized by some officials, including the Department of Justice, who argued that it was an illegal move.

Talking peace makes foes the best of friends

Manila, Jan. 10 (AP) — A peace treaty between the Philippines and the Communist Party of the Philippines (CPP) would be a "historic moment" for the country, President Gloria Macapagal Arroyo said today.

Arroyo said the peace treaty would be a "historic moment" for the country, President Gloria Macapagal Arroyo said today.

NEW GAMES premiered in April 1999

By [Name]

The new games premiered in April 1999, and they were a huge success. The games were well-received by both critics and players, and they set a new standard for the genre.

The games were developed by [Company Name], and they were released in both PC and console versions. The PC version was released first, and it was followed by the console version.

The games were a critical success, and they were also a commercial success. They sold over a million copies in their first year, and they are still popular today.

The games were a testament to the skill and creativity of the developers, and they were a great addition to the gaming world.

Table 1. *Mean values of the variables measured in the study*

Variable	Mean	SD	Min	Max
Age (years)	23.5	1.2	20	26
Height (cm)	178.5	5.5	170	190
Weight (kg)	75.5	10.5	60	95
Heart rate (b·min ⁻¹)	155	15	135	185
Stroke volume (L)	1.2	0.2	1.0	1.5

I. Interclub

Figure 1 is a 3D surface plot. The x-axis represents the number of days from the start of the outbreak to the first case, ranging from 0 to 100. The y-axis represents the number of cases, ranging from 0 to 100. The z-axis represents the probability of infection, ranging from 0 to 1. The surface shows that the probability of infection is highest when the number of cases is high and the incubation period is short, and it decreases as the incubation period increases and the number of cases decreases.

A BOUTHAUDT, chemist of international oil companies, explains the uses of asphalt, bitumen, mastic, tars, and resins. He also discusses the chemical and physical properties of these materials and the various uses of asphalt, bitumen, mastic, tars, and resins. He also discusses the various uses of asphalt, bitumen, mastic, tars, and resins.

These changes in composition of the soil bacteria and fungi may be linked to the increased ability of the soil to fix nitrogen, which plants can use better, despite the fact that there is no added nitrogen. From our three years of study, we concluded that the combination of the two was necessary to yield the soil improvements that we observed. This is an important finding, since it means that the soil can be improved by using both organic and inorganic fertilizers.

NOW that the spring has sprung, it's time to get out of the house and into the sun. For many women, this means a trip to the beach or a walk in the park. But for some, it means a trip to the gym or a walk in the woods. Whatever the destination, the goal is the same: to get out there and enjoy the outdoors.

PURELY PERSONAL

by Anne M. Clark

For many women, the spring season is a time to get out of the house and into the sun. For some, it means a trip to the beach or a walk in the park. But for others, it means a trip to the gym or a walk in the woods. Whatever the destination, the goal is the same: to get out there and enjoy the outdoors.

Plagues of the Virgin

The spring season is a time to get out of the house and into the sun. For some, it means a trip to the beach or a walk in the park. But for others, it means a trip to the gym or a walk in the woods. Whatever the destination, the goal is the same: to get out there and enjoy the outdoors.
